**Address** : \_\_\_\_\_

**Phone Number** : \_\_\_\_\_ **Mobile** : \_\_\_\_\_

**Private Health Insurer** :  None/ \_\_\_\_\_

**Local Doctor & Address** : \_\_\_\_\_

**Occupation** : \_\_\_\_\_

## What is the main reason for your visit today?

### Medicare

We bulk bill standard eye examinations.  
Most contact lens related eye examinations are not covered by Medicare  
Extra specialist scans incur out of pocket fees.

### OCT imaging:

This scan examines the deeper layers of the eye and helps detect changes in eye health much earlier than a standard eye test. We recommend this as a baseline for all new patients to our practice and for those with risk factors. Your optometrist will discuss this further with you if it is required and the charge for this scan is \$70.

### Pupil dilation:

As part of your comprehensive eye test it may be necessary to dilate the pupils of your eyes to more thoroughly examine the retina (back of the eye). This may cause blurred vision and increased glare for several hours.

If this test is required do you prefer to:

- Dilate my pupils today if necessary and I will wait/ get a lift home
- Reschedule that part of the test to another day

### Contact Lenses:

Let the Optometrist know if you are interested in contact lenses and they will assess your suitability during your initial bulk billed visit. Prescribing, fitting and training for use of contact lenses requires 2 or more visits and reception staff can discuss the relevant charges.

## Who may we thank for referring you to our practice?

**Friend/Relative**  \_\_\_\_\_ **Doctor**  \_\_\_\_\_

**Internet-Google**  **Internet-Other**  **Walking past**

**Workplace**  \_\_\_\_\_ **Teacher/ School**
